

# Buying Group & Managed Storage

CMS's Buying Group forms the central part of our Managed Purchasing department. Managed Purchasing allows our clients to utilise our Purchasing department and CMS Procure cloud based system to provide all their procurement needs.

Originally designed to meet the requirements of our in-house construction company CMS Group now forms the back end of our Managed Purchasing services.

Offered as a service since 2019 the buying group and managed purchasing provide all the requirements to meet the needs of small to medium size contractors.

CMS Hub Procure

Group Discounts

Single CMS Invoice Simplicity

Historical Tracking Over all Steps

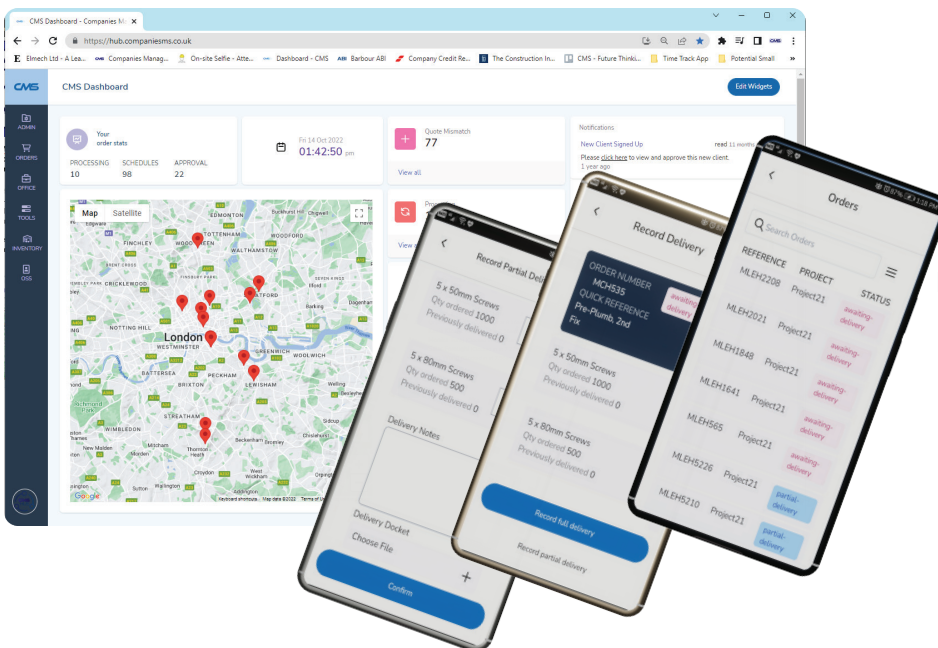

Cloud Based Interface and Monitoring

Warehoused Pallet Storage

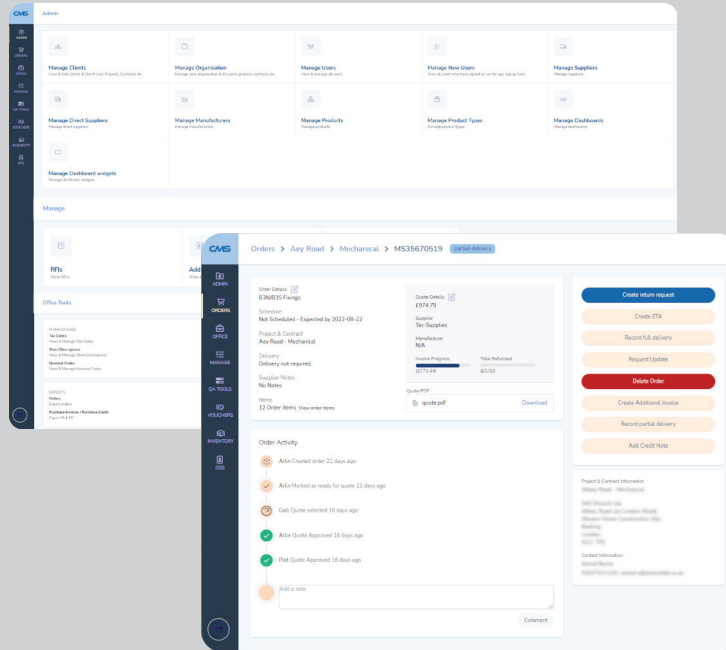

Managed Storage Delivery Service

## User Interface

Intuitive User Interface maximising available information over a reduced set of screens.

- Combined Buying Power
- Transparent Transactions
- Cloud Based CMS Hub
- History with comments
- CMS App
- Data Export
- Invoice handling
- Project Costing
- Multi Site and Project

## Buying Group

Operating as part of the CMS Procure Team the buying group is responsible for providing best options across our vendor base. This could be product quality, delivery schedules, stock levels and of course product pricing.

By using the combined size of our Managed Purchasing Clients as well as clients using CMS Procure Buying Group option advantages are enjoyed by all.

## Managed Purchasing

Our procurement department is your procurement department. Using CMS Hub Procure your Sites and Managers can control and authorize all steps of the procurement process while CMS provides all the work and administration. All steps are available, historically visible and timestamped. A Simplified single monthly CMS Invoice reduces your administrative and accounting loads and of course the single invoice is fully linked to all approved purchases.

Of course all purchases are made taking full advantage of our buying group pricing.

## Managed Storage

When making scheduled orders with the Buying Group the option is available to use CMS managed storage facilities. These provide term storage and delivery of scheduled items according to your sites requirement. Delivery schedule and Content can be adjusted to meet your sites progress while CMS Managed Storage provides all the required work.
