OnSite ID

CMS SELFIE

CMS's Site ID system is integrated into the OnSite Selfie family and creates an additional quick site identification method. Used as an easy site ID or providing instant information in an emergency situation.
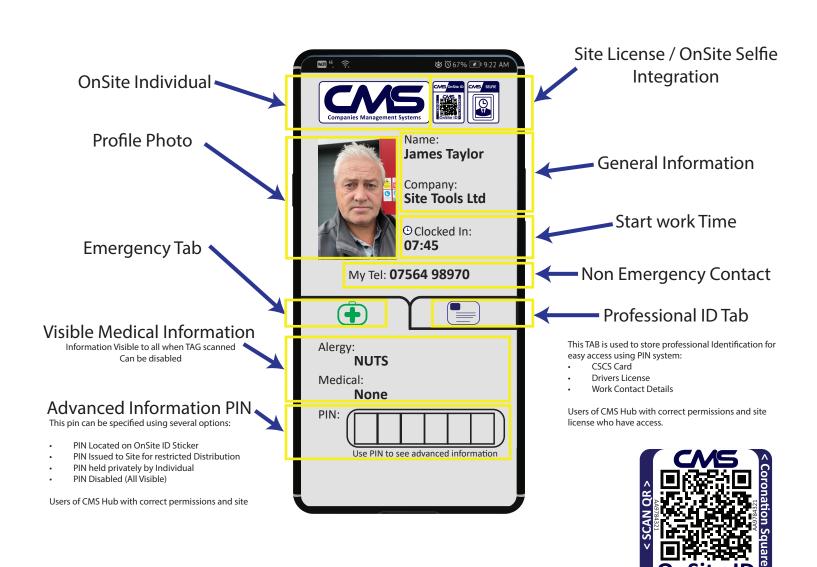

OnSite ID, a multi purpose instant ID Tool

Designed for fast identification by using a scanned QR code linked to CMS Hubs back end. For use as a standalone product or integrated into OnSite Selfie.

- Use with any QR Capable Smart Phone
- No App required to view Identification data
- Integration with CMS App for administration of individual details
- Selectable amount of presented data
- PIN Enabled Tags require use of PIN to see advanced information
- Easy Display of Professional registrations such as CSCS card
- Integrated into CMS Hub user admin system for site licensing
- Individual, Company or Site registration
